WSPS Launches New Website!

WSPS is pleased to announce a newly redesigned website, which went live in December with an updated look and improved access to important information.

New interactive features provide simple navigation to news and updates, and offer online event registration. The site provides easy access to the latest news and updates affecting plastic surgeons and the organization. It also offers an online conference registration platform making it easier than ever to register for the annual WSPS Conference and other events.

We invite you to update your online profile with your practice information so consumers can find you through the new website. Simply login to create a new password by entering your email address on the [reset password page](#). You will receive an email with instructions on how to setup your new password.

Please take a minute to visit the site at:
www.WISocietyPlasticSurgery.com.

WSPS 2017 Annual Conference

Online registration is now open for the 2017 Annual conference of the Wisconsin Society of Plastic Surgeons!

WSPS Annual Conference
Friday, April 21, 2017
Harley Davidson Museum, Milwaukee

WSPS is delighted to announce that the 2017 conference featured presenter will be renowned plastic surgeon Joseph Hunstad, MD.

Doctor Day 2017 - Registration is Open

Building off record attendance at Doctor Day 2016, specialty societies and the Wisconsin Medical Society are expecting to draw another record attendance at the 2017

Doctor Day. The event is scheduled in Madison on March 29.

This annual advocacy event is timed well for physicians to be able to meet with their legislators and/or staff members, and to have input on the budget and other important health care issues. Participants will hear from Medicaid Director Michael Heifetz of the Wisconsin Department of Health Services and others, then will take part in an issue briefing before heading to the Capitol. Lunch will be provided, and the day will conclude with a reception in downtown Madison. [Register here.](#)

WMS Webinar Meets CME Requirement

The Wisconsin Medical Society is offering “Wisconsin Medical Examining Board Opioid Prescribing Guidelines,” a two-hour webinar available on-demand. The course satisfies the new MEB mandate requiring physicians with a DEA number to complete two continuing medical education (CME) credits on its Opioid Prescribing Guidelines during the current CME cycle, as well as another two credits during the next cycle.

Presented by Society member Michael McNett, MD, the webinar provides a comprehensive review of the guidelines. I completed it myself last week and thought it was not only outstanding, but a good reminder of the excellent work the Society does every day to meet its members’ needs. ASPS Payment Reform Toolkit

ASPS has released new tools to help members understand how their practice will be impacted by MACRA, which combines existing programs, adds new incentives for clinical practice improvement and heavily rewards participation in certain alternative payment models. This comprehensive site offers a breakdown of the new payment system and step-by-step instructions and resources to aid members in achieving financial bonuses for participation. [View toolkit.](#)
